Wireless Network Information & Instructions

We have **THREE** wireless profiles that you may see:

Mercer: This wireless network is for district owned devices and can only be joined by devices owned by the Mercer Co. School district.

Mercer_Guest: This wireless network is for guests. The bandwidth is limited and the filtering is set to maximum and is intended for guests.

Mercer Co. Schools: **This wireless network is for district staff and students to join their personal devices (phone, tablet, laptop) to our network.** It is fast, efficient, and the filtering levels are based on group memberships for staff, students, and others.

Here is how to join a typical Chromebook. Note: Devices will vary, but the following settings should be applicable for most all devices:

SSID: Mercer Co. Schools
